

The Need to Study JFK

The human vomit that killed Kennedy
or knew about it, condoned it, planned it,
covered it up

are mostly dead now
—the ones in the CIA and the military

who couldn't wait
for war — sacred rounds of Ares!
to begin.

But those of us still sailing
in the boats of life

look upon these murderers
with contempt and hatred

that's right
with loathing & unforgiving understanding
as we study
the Book Boats of revelation & analysis
